- No. 5      Mechanism for production of NIEs  
Position paper will be prepared.
- No. 6      Restrictions on intelligence activities to respect rights of U.S. citizens  
Position paper will be drafted. This will require close coordination with the White House.
- No. 7      Serving Congressional needs for substantive intelligence  
It is recommended no position paper be submitted to the SSC/HSC on this topic. It is not in our interest that this be a central issue or that the Congress focus upon it. Rather, this should be handled in a rather quiet way, "rocking along" until after the new Congressional oversight mechanism is functioning and necessary negotiations can be undertaken outside of an "investigative" atmosphere.
- No. 8      Telling the intelligence story better  
This is not considered a suitable topic for a position paper to be submitted to the SSC/HSC.
- No. 9      Agency position on draft administration legislation proposals  
This is not considered a suitable topic for a paper to go to the Congressional committees. Position papers will be prepared for the White House as appropriate when administration proposals surface.
- No. 10     DCI philosophy on secrecy  
The study on this topic is still under way. It probably will be a suitable topic for a position statement in the near future.
- No. 11     Internal command and control of CIA  
This is not considered a suitable topic for a paper to go to the Congressional committees.
